eLOGBOOK

This newsletter has been designed to provide you with regular correspondence and updates from the elogbook team.

3 weeks since launch

Have you seen the new elogbook? 28,000 operations were entered in the first week and there have been surprisingly few bugs. There is a new launch help page for up to date information and as usual, please do let us know of any other new issues.

Don't Panic!

For a few weeks you can still access the old elogbook site - this will be closed down fully soon.

Launched Monday 27th March

What do I need to do?

1. TPDs – have a look at who is in your training programme and correct the lists as required
2. Trainees – Ensure your year in training and trainee type are correct

Bugs already identified and fixed

- Trainer reports for TPD's and procedure by trainer report now working
- SAC report for general surgery now displays column for assisted
- SAC report groups with age limits now display correctly
- Date ordering in browse operations now displaying correctly
- Consultants now displaying correctly when editing an operation
- Favourites now display in alphabetical order
- Operation date & consultant are now carried forward to the next operation
- When adding a Paediatric operation, *Gestation* is no longer a required field

Data Controller

Please remember that you are the data controller for your data and you must therefore register with the information commissioner.

Contact Us and Feedback

Please tell us what you think about the elogbook – we can't improve it without you telling us what needs to change. To provide feedback use any of the following

1. The elogbook helpdesk. (you will need to log in)
2. The live site: Use the blue 'Feedback' or the red 'Report Issue' buttons
3. Your specialties elogbook representative
4. BOTA, ASIT or any of the specialty SACs or Specialty Associations
