

This newsletter has been designed to provide you with regular correspondence and updates from the eLogbook team.

New Look

Look out for the new front end of the eLogbook. This has all the same functionality as before but is in a more up to date format and is more mobile friendly.

Don't Panic!

All the operative data from the old logbook will be transferred across and the mobile app will continue to work.

What will not be transferred across?

1. Have you set up any filters in the eLogbook? The design of these will not be transferred.
2. Have you used the audit function in the eLogbook? The audit forms and audit data will not be transferred. Please download any audit data and store it appropriately.

Sneaky Preview?

Follow this [link](#) to have a look. The data displayed is out of date and please be aware that on 27th March anything you have entered on this site will be erased and replaced with your up to date data from the current eLogbook.

Specialty Leads

Every specialty has an eLogbook lead. If you need to identify yours please contact your specialty SAC or the eLogbook helpdesk.

More Information?

- See [this webpage](#) for our most up to date information on the launch
- We will continue to send emails and newsletters over the next few weeks
- Follow us on Twitter and help by retweeting messages please

Contact Us and Feedback

Please tell us what you think about the eLogbook – we can't improve it without you telling us what needs to change. To provide feedback use any of the following

1. The eLogbook [helpdesk](#). (you will need to log in)
2. The [demo site](#): Use the blue 'Feedback' or the red 'Report Issue' buttons
3. Your specialties eLogbook representative
4. BOTAs, ASIT or any of the specialty SACs or Specialty Associations
